Development and design:

Everyone knows that design is the soul of jewelry. In order to conform to the world of jewelry fashion.

We set up our own professional design and development team. They are good at designing and making molds.

So that we can continue to update the product, 500-100 models per month design.

We also welcome customers' orders, Just tell us your design picture or idea, We will proof production for you.

Production display:

Environmental plating

Lead - free nickel - free chromium - free environmental gold plating
So that jewelry is more glossy more wear-resistant, anti-allergic, color retention more durable

- 1: the role of thick silver plating: Increase the whiteness and smoothness**
- 2: the role of palladium plating: Increase the hardness and wear resistance, color effect**
- 3: the role of rhodium plating: Increase the brightness, wear resistance, Improve color retention time**

Factory external environment:

Factory staff

Factory workers military exercises and entertainment

Happy travel☑
